

## CASE STUDY

# GoodSuite Delivers Compliance-Ready Cybersecurity Solution

## OBJECTIVES

Ensure the organization met strict cybersecurity compliance standards imposed by their parent company and pass a third-party audit without hiring internal security personnel.

## CHALLENGES

- **Compliance Pressure:** Required to meet stringent security expectations driven by corporate oversight.
- **Third-Party Audit:** Needed to successfully pass a detailed audit from an external evaluator.
- **No Internal Security Staff:** Lacked in-house resources to handle 24/7 cybersecurity monitoring and response.

## SOLUTIONS

- **Managed Detection & Response (MDR):** GoodSuite deployed Blackpoint's MDR platform to deliver real-time monitoring, threat hunting, and active response – covering the client's full digital environment.
- **SIEM & Compliance Logging (LogIC):** Implemented centralized log collection and correlation to support compliance, forensic readiness, and advanced threat detection.
- **Hands-Free Security Operations:** Delivered a turnkey security solution with full SOC capabilities – removing the need to hire, train, or manage internal security personnel.

## BENEFITS

### 24/7 Threat Defense

Active threat hunting with immediate response reduced delay and risk compared to traditional antivirus solutions.

### Compliance Confidence

LogIC enabled audit readiness and regulatory alignment through comprehensive log management.

### Cost-Effective Security

Full cybersecurity coverage without the cost and complexity of managing an in-house security team.

## AT A GLANCE

### Challenges

- External audit requirement
- No in-house cybersecurity
- Strict compliance standards

### Benefits

- Continuous threat response
- Centralized logging for audit
- Reduced breach risk & overhead

*"We needed to meet rigorous compliance demands from our parent company and had no internal cybersecurity team in place. GoodSuite delivered exactly what we needed—real-time threat monitoring, centralized logging for audit readiness, and full SOC coverage. We passed our external audit with flying colors, and I finally feel confident in our security posture. Their team was responsive, knowledgeable, and easy to work with"*
